FUNCTIONAL MODULE TRAINING

Course Duration : 3 Months

Class Mode : ONLINE & OFFLINE

SAP FICO

(SAP FINANCE AND CONTROLLING)

SAP FICO Course will prepare the Students to Learn & understand all the End-to-End implementation steps to configure SAP FI and CO modules for any Organization. The course also highlights the necessary Documentation and Methodology which are used in SAP FICO implementation projects. After this course, the Students will be able to identify and analyse the Business requirements of any organization for the Record to Report process cycle and configure SAP FICO modules accordingly.

SAP SD

(SALES AND DISTRIBUTION)

SAP Sales and Distribution (SD) is an important module of SAP ERP consisting of Business processes required in Selling, Shipping, Billing of a product. The module is tightly integrated with SAP MM & SAP PP. Key sub modules of SAP SD are Customer and Vendor Master Data, Sales, Delivery, Billing, Pricing, and Credit Management.

SAP PP

(PRODUCTION PLANNING)

SAP Production Planning (SAP PP) is the component of ERP Central Component (ECC) that helps Businesses plan Manufacturing, Sale and Distribution of goods. The master data is used to create Transactional data in SAP ECC, such as creating a production order in PP, Sales order in SD, or a Purchase order in MM

SAP MM

(MATERIALS MANAGEMENT)

Module of the SAP ERP Software package from SAP AG that is used for Procurement Handling and Inventory Management. SAP Materials management covers all tasks within the Supply Chain, including consumption based Planning, Vendor Evaluation and Invoice verification.
